Coventry and Warwickshire Population Health Management Strategy

Valerie de Souza, Consultant in Public Health

Population Health Management update

- 3 March Place Forum – appetite to build the culture, capacity and capability to embed PHM approaches
- Proactive and opportunistic work to apply PHM approaches in COVID19 response and recovery
- Partnership Executive Group signed off a PHM Strategy for Coventry and Warwickshire in August 2020
- Commitment to resourcing implementation of Strategy from all HCP partners (local authorities and NHS) – to include interim executive lead for PHM and creation of virtual team

Next steps

- Opportunities to demonstrate PHM approach in priority areas
- Wide stakeholder engagement and communication, including with clinicians
- System outcomes framework and prioritisation approach
- Application to participate in Wave 3 of national PHM development programme
- Part of regional Decision Support Unit (DSU) network – proposed PHM team incorporates DSU for Coventry and Warwickshire
- Enablers: Integrated Care Record, Out of Hospital risk stratification tool
